PlastiKote Trade Permanent Adhesive 400 ml

Ord.-no.: 071029

Technical Information

PlastiKote Permanent Adhesive spray is a high quality glue spray for permanent adhesion. This heavy duty adhesive spray provides a permanent hold that will bond - ideal for any number of trade jobs, and a must-have in any toolbox. Suitable for gluing paper, cardboard, wood, textiles, and various types of plastic.

Quality & properties

- Suitable to glue large surfaces
- Fast drying
- User-friendly
- Spray pattern about 10 centimetre wide
- Produces a fine layer of adhesive

Physical & chemical data

- Base: Synthetic resin
- Colourname: Transparent
- Degree of gloss: gloss, >75
- Efficiency: 400 ML – 1,25-1,75 m²
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 4000/20 bar
- Content: 400 ML

How to use

- The aerosol should have room temperature. Best processing temperature 5 to 30°C. Before use, shake the aerosol.
- Before use, test the compatibility of the surface.
- Apply glue in an equal layer.
- For a permanent adhesion, treat both parts to be glued, allow to dry 15 to 20 minutes and firmly press together.
- When treating porous surfaces, apply several layers.
- After use, clean the valve (turn aerosol upside down and press the nozzle for approximately 5 seconds).

Environmentally sound
European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal
Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling
All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of May 30, 2024 – This release replaces all eventually earlier issued versions.
