

PlastiKote PURE Clear Coat 350 ml

Technical Information

PlastiKote PURE is a revolutionary new line of water-based spray paint. It is the first of its kind to be made from sustainable and recycled materials, without compromising on incredible quality.

PlastiKote PURE Clear Lacquer spray paint will add a perfect gloss seal to any project, making it a perfect choice for arts and crafts, DIY and more.

PlastiKote PURE is designed to provide a superior result, with a durable, long-lasting finish that is easy to apply and resists fading, cracking, and chipping over time.

Odourless, quick-drying, and suitable for use on almost all surfaces, it's also produced with 90% less solvents, making it safe to use indoors.

Ord.-no: 111015, 111016

Quality & properties

Extremely quick drying
Less than 5% solvent content
Also suitable for outdoor applications
Hard-wearing, resilient surfaces
Less spray mist, therefore pleasant usage even indoor
Suitable for toys

Physical & chemical data

Base: Waterbased special resin
Colourname: Transparent
Degree of gloss:
◦ mat GU
◦ gloss GU
Efficiency: 350 ML – 1,0 - 2,0 m²
Dry to touch: 60 min
Dust dry: 30 min
Completely dry: 12 h
Overcoatable: 12 h
Flash point: n.a.
Content: 350 ML

How to use

Before use, carefully read the directions on the packaging and act accordingly.
The surface should be clean, dry and free of grease. Remove loose old lacquer and rust and sand the surface.
In spite of low formation of spray mist, we recommend to protect the surrounding area.
Shake can for 2 minutes, test spray. ATTENTION! The optimal distance is approx. 30-40 cm. Spray in 2 minute intervals several thin layers.
PURE spray paint should not be applied during temperatures lower than 15°C, as this might delay drying time.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of May 7, 2025 – This release replaces all eventually earlier issued versions.
