

PlastiKote Fast Dry Enamel Brush 59 ml Colours

Technical Information

PlastiKote Fast Dry Enamel paint 59ml is a water-based paint that gives a brilliant enamel finish with superior quality. Our Fast Drying Enamel paints come in a 59ml bottle. This handy small enamel paint is ideal for small hobby painting projects - perfect for model-making and other creative arts and crafts. It dries down quickly to a durable, long-lasting enamel finish that's non-fading, and safe to use on children's toys and furniture. Available in various superb colours.

Our Enamel paint is suitable for most hard surfaces but not polystyrene, leather, Styrofoam and vinyl. Always refer to the instructions on the reverse of the jar and test an unobtrusive area before proceeding with a project.

How to use

Before use, carefully read the directions on the packaging and act accordingly.
Clean surface, stir, brush on thin coats.
Test on an inconspicuous area first.
Touch dry in 10-15 min, thoroughly dry in 20-25 minutes.
Wash brushes in water.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of May 7, 2025 – This release replaces all eventually earlier issued versions.
