

PlastiKote Garden Games 400 ml

Technical Information

Mark out garden games, tennis pitches, goalposts and more with PlastiKote Garden Games spray paint. Our Garden Games spray paint is a temporary line marking paint that can be used on grass, astroturf, concrete, and tarmac - ideal for marking out temporary football pitches on the lawn, badminton courts, hopscotch ladders, and more! Our Garden Games line marking spray paint is perfect for a summer of active fun. The paint will wash away with rain or water, so there's no need to worry about permanent staining or marks.

And it couldn't be easier to use, with a strong colour pay-off and quick drying finish,

Ord.-no: 004376

Quality & properties

- For outdoor games
- Washes away with water
- White colour
- Easy application
- Great for temporary marking on grass

Physical & chemical data

- Base: Acrylic resin
- Colourname: White
- Degree of gloss: satin mat GU
- Efficiency: 400 ML – 7.75 m²
- Surfaces: Perfect for temporary marking on grass
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Temperature Resistance: 110 °C
- Content: 400 ML

How to use

Before use, carefully read the directions on the packaging and act accordingly. The surface should be clean, dry and free of grease. Remove loose old lacquer and rust and sand the surface. The surface should be clean, dry and free of grease. The aerosol should have room temperature. Best processing temperature 10 to 25°C. Before use, shake the aerosol for 2 minutes and spray a sample. Distance to the surface to be treated approximately 25 to 30 centimeter. Apply the spray paint in several thin layers. Before applying the next layer, again shake the aerosol. When desired, after drying a primer and a lacquer can be applied. After use, clean the valve (turn aerosol upside down and press the nozzle for approximately 5 seconds).

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of May 7, 2025 – This release replaces all eventually earlier issued versions.
