Standardised colour variety according to RAL with optimised quality

RAL colours – proven colour sprays with the best possible colour shade accuracy with high paint quality. The wide colour spectrum allows a colourful and at the same standard finish for indoor and outdoor use – for new paintwork, transformations in exactly the right colour shade or touch-ups.

MADE

IN

GERMANY

Threefold-enhanced performance

The right solution for every application including handicrafts, household and industrial applications. Available in a wide range with 400 ml content, the compact spray paint in 150 ml and the practical 12 ml touch-up stick in the mini version. Available in a shiny, satin and matte degree of gloss. Ideal for decorative paintwork in the hobby section, for industrial use, repairs in exactly the right colour shade or as an effective aide to repair and correct scratches and scrapes on painted surfaces.

DUPLI-COLOR paint quality 'Made in Germany'

Very high coverage for paint results within a short period of time

Short drying time – rapid further processing

Improved adhesion through special adhesion promoting resins

Reduced curtaining avoids drops

Increased corrosion protection through rust protection additives in the paint

For indoor and outdoor use

Suitable for almost all surfaces*

Creates uniform and smooth painting results

* use only the special DUPLI-COLOR primers!

Additional benefits for our versatile users

With the additional spray nozzle in the cap, a flat jet spray pattern can be achieved in horizontal and vertical directions. Perfectly suited for larger surface finishes. Saves time, provides optimised paint spreading and generates homogeneous painting results. Simply replace the red wide jet spray head with the existing circular jet spray head. Perform a spray test and get started!

The DUPLI-COLOR spray head set (Part no. 723087) offers even more alternatives for individual spray painting: Spray strength fine (approx. 1 cm spraying distance), medium (approx. 4-5 cm spraying distance), wide (8-10 cm spraying distance). Why don't you give it a try!

Art.-Nr. 723087

Individual spray widths

Spray head "fine"

Very clean and thin spray jet. Whether you want to paint your computer or your cell phone, no problem...

Spraying distance: 1-3 cm

Spray head "medium"

Clean and medium-wide spray jet. Paint your door frame or shelf. Corners and angles can be easily worked on.

Spraying distance: 5-10 cm

Spray head "wide"

Very wide spray pattern for particularly large areas. Give walls and garage doors a new color within minutes.

Spraying distance: 15-25 cm

Adjustment
vertical

Adjustment
horizontal

Spray head „profi „

Wide and clean spray pattern, similar paint application as with a spray gun. Variable adjustment of the spray nozzle.

Spraying distance: 15 cm

RAL ACRYLIC on offer

Colourful, individual
and versatile

More than 160 different shades in different grades of gloss offer a wide selection of colour shades.

For optimal spray paint results, we firstly recommend an appropriate prime coat followed by the RAL ACRYLIC spray in exactly the right colour shade for the perfect paint system. The RAL clear paint in gloss and matt or high-quality, two-component super clear paint offer added protection. Everything from one source. Everything from DUPLI-COLOR.
